APR 4 1997

Mr. J. R. Wilkinson  
Confederated Tribes  
of the Umatilla Indian Reservation  
P.O. Box 638  
Pendleton, Oregon 97801

Dear Mr. Wilkinson:

WASTE SITE GROUPING FOR 200 AREAS SOIL INVESTIGATIONS, DOE/RL-96-81, REV. 0

This is to request review and comment on the most recent revision of the attached subject document, along with the 200 Areas Soil Remediation Strategy - Environmental Restoration Program, DOE/RL-96-67, Rev. 0. A copy of DOE/RL-96-67, Rev. 0, was previously transmitted in a U.S. Department of Energy (DOE), Richland Operations Office (RL), letter to you from me "Request for Tribal Consultation Regarding the 200 Areas Soil Remediation Strategy - Environmental Restoration Program, DOE/RL-96-67, Rev. 0, and the Waste Site Grouping for 200 Areas Soil Investigations, DOE/RL-96-81, Decisional Draft," dated October 25, 1996.

RL along with other members of the 200 Areas Strategy Development Team would be happy to meet with the Tribes to provide an overview of the process used to develop the strategy, as well as the waste site grouping background information and conceptual models. This transmittal is in keeping with DOE's commitment to continued sharing of key documentation affecting cleanup activities at the Hanford Site, as early as possible.

If you want to discuss this matter further or require additional information, please contact me at (509) 376-7087.

Sincerely,

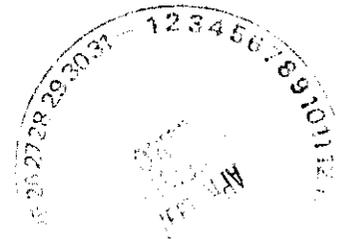

*Bryan L. Foley*  
Bryan L. Foley, Project Manager
