Subject: Columbia River Comprehensive Impact Assessment

Dear Mr. Stewart:

I am writing in support of the Columbia River Comprehensive Impact Statement. We need to look to the clean-up of this area in the safest manner possible. We need to know the human and ecological health risks for as long as the contaminants are hazardous.

The assessment will provide results that are useful for decision making on Hanford Waste Management. I want a safe and clean environment for my children, grandchildren and great grandchildren, too. Please support this impact assessment.

Thank you,

Irene Starr,
