Change Title <b>Modifications to Hanford Federal Facility Agreement and Consent Order (Agreement) Action Plan Appendix A to Include Facility Decommissioning Process Terms (Surplus Reactor Negotiations)</b>
--

Description/Justification of Change Revise and update Appendix A of the <u>Hanford Federal Facility Agreement and Consent Order (Agreement)</u> to include additional Facility Decommissioning definitions. This change package adds the following acronyms and definitions to the Agreement Action Plan, Appendix A, Definition of Terms and Acronyms:  <div style="margin-left: 40px;"> <p>1) Interim Safe Storage (ISS) of the Reactors - Interim Safe Storage (ISS) is the first stage of final disposition. It consists of (i) ensuring that facility hazardous substances are, and will remain safe and secure, and (ii) reducing the footprint of the reactor building to the primary shield wall, and sealing all openings such that the facility is in an environmentally safe and secure condition prior to initiation of disposition phase II. During reactor ISS all ancillary structures surrounding the shield wall will be removed. Resulting wastes will be disposed at Hanford's Environmental Restoration Disposal Facility (ERDF), or other disposal facility as may be approved by the parties. On completion of ISS, surveillance and maintenance systems will be upgraded as appropriate to provide for remote monitoring of the remaining structure prior to disposition phase II.</p> <p>2) Final Disposition of the Reactors - Final disposition of the reactors will consist of removing the reactor cores from their present location to a disposal facility in the 200 Area of the Hanford Site as specified in the FEIS-ROD. Associated structure(s) and residual wastes will be removed so as to meet established cleanup requirements pertaining to Hanford's 100 Area. Resulting wastes will be disposed at Hanford's ERDF, or other disposal facility as may be approved by the parties.</p> </div>
---

Impact of Change This change control form does not impact any other Hanford Federal Facility and Consent Order milestones.
