USACE-HQ will be sending Nancy Palmello to participate in the public meeting. Since the 1100 Area will be the first CERCLA site to reach a Record of Decision, it is anticipated that Secretary O'Leary may be able to sign that document during her next visit. Remedial actions at ALE are scheduled to be completed by October 1994, in parallel with the 1100-IU-1 Operable Unit. The scope of work will be provided to the Regulators in narrative form. There was some discussion on involving the various Indian Tribes in the work being done. A cultural resource survey on 1100-IU-1 has been initiated, as the outcome from the survey is the critical path. A potential waste site below the Horn Rapids Landfill will be investigated in the near future.
- SPC RI/FS Update - Loren Maas indicated that the RI/FS Report is undergoing comment resolution and is on schedule to be provided to the Tri-Parties mid-summer 1993.
