Dear Messrs. Klein and Liedle:

Re: 100-D Ponds Closure (TSD # D-1-1)

The Washington State Department of Ecology (Ecology) acknowledges receipt and accepts the U.S. Department of Energy's (USDOE's) closure certification and professional engineer's certification of closure for the 100-D Ponds dated August 9, 1999. This unit closure was conducted in accordance with Washington Administrative Code (WAC) 173-303.

Clean closure releases the owner and co-operators from the interim status/Treatment Storage Disposal requirements of the Resource Conservation and Recovery Act for this unit. USDOE shall re-submit Form 3 of the Part A for this unit stamped CLOSED, as of August 9, 1999. In future modifications of the Facility Wide Permit, Ecology will indicate that this unit was clean closed as of this date.

If you have any questions, please contact me at (509) 736-3049.

Sincerely,

Wayne Soper, 100-D Area Unit Manager  
Nuclear Waste Program
