APPENDIX D – RESPONSE TO COMMENTS

The Permittee, United States Department of Energy, provided no comments on the draft permit. The comment period lasted from July 23 through September 2, 2003. No other parties provided comments.

Renewals of state wastewater discharge permits that do not have an increase in volume, or a change in nature of the wastewater, do not require public notice of application or public notice of draft permit. **A thirty (30) day public comment period for this Draft Permit and Fact Sheet was not necessary;** however, the Draft Permit and Fact Sheet were placed on Ecology's Nuclear Waste Program website for review. The proposed Permit Conditions in the Draft Permit were subject to change during this review process.
