Dear Mr. Wilson:

SUBMITTAL OF THE HANFORD FACILITY DANGEROUS WASTE, PART B PERMIT APPLICATION FOR THE INTEGRATED DISPOSAL FACILITY (IDF), DOE/RL-2003-12, REVISION 1

- References:
1. RPP-18416, Revision 0, "Part B Permitting Plan for the Integrated Disposal Facility," October 9, 2003.
  2. ORP letter from J. E. Rasmussen and J. Hebdon, DOE-RL, to M. A. Wilson, Ecology, "Submittal for Completion of M-20-57 Hanford Federal Facility Agreement and Consent Order (HFFACO) Milestone," 03-ED-088, dated June 23, 2003.

In accordance with the Reference 1 Permitting Plan, the U.S. Department of Energy (DOE) is submitting the attached certified Part B Permit Application, Revision 1, for the IDF.

Revision 1 of the Part B Permit Application is a modification to Revision 0 (transmitted with the Reference 2 letter) based on the results of the Notice of Deficiency (NOD) workshops. In order to maintain the baseline schedule for the IDF in the Permitting Plan, a permit is needed by August 23, 2004.

Pursuant to Revised Code of Washington (RCW) 42.17.310(1)(ww) and RCW 70.74.285, DOE has designated portions of the Part B permit application as national security sensitive (pages marked as "OFFICIAL USE ONLY"). Based on this national security sensitive designation, DOE requests that those portions of the permit application identified as "OFFICIAL USE ONLY" be withheld from public inspection and copying.
