**RECEIVED**  
 OCT 04 2004  
 EDMC

Dear Ms. Davis:

**HANFORD FACILITY RESOURCE CONSERVATION AND RECOVERY ACT PERMIT  
 CONDITIONS II.U AND II.V - MAPPING AND MARKING OF DANGEROUS WASTE  
 UNDERGROUND PIPELINES FOR FISCAL YEAR (FY) 2004**

This letter provides notification of updates made, as appropriate, to the dangerous waste underground pipeline maps required for Hanford Facility Resource Conservation and Recovery Act Permit (Permit) (#WA7890008967), Dangerous Waste Portion, Conditions II.U.3 and II.U.4. The maps that required updating are identified on the accompanying list. Copies of these maps are available on the Hanford Site via the Document Service Centers.

This letter provides notification that no marking activities, as required by Permit Condition II.V, were conducted during the reporting period. As noted in the submittal for FY 2003, a portion of the 200 East Area boundary fence remains down in support of Waste Treatment Plant construction. This portion of fence had been marked as required by Permit Condition II.V to identify the location of the underground pipeline associated with the 216-B-3 Pond. When the fence is replaced and new boundaries are established, the 216-B-3 Pond pipeline markings will be reviewed to ensure compliance with the Permit Condition.

Should you have any questions, please contact me, or your staff may contact Joel Hebdon, Director, Office of Environmental Services, on (509) 376-6657.

Sincerely,

Keith A. Klein  
 Manager

**List of Updated Maps  
September 2004**

LIST OF UPDATED MAPS  
September 2004

<b>DRAWING</b>	<b>SHEET</b>	<b>DESCRIPTION</b>
H-13-000280	2 & 16	Revised
H-13-000274	1 & 2	Deleted *

\* This drawing is being deleted in conjunction with the procedural closure of the 325 Hazardous Waste Treatment Units (HWTUs) Radioactive Liquid Waste Tank (RLWT) subunit. The RLWT was the only unit subject to the Hanford Facility RCRA Permit that was attached to the 300 Area Radioactive Liquid Waste System (RLWS).
