Enclosed are the "Proposed Plan for the Remediation of the 221-U Facility (Canyon Disposition Initiative), DOE/RL-2001-29, Revision 0 (Enclosure 1), and the Final Feasibility Study for the Canyon Disposition Initiative (221-U Facility), DOE/RL-2001-11, Revision 1, (Enclosure 2). All regulatory comments have been incorporated into these final documents.

These final documents were released to the public on December 13, 2004, with the review and comment period extended until January 30, 2005. All the parties recognize that completion of the Canyon Disposition Initiative for the 221-U Facility plays an important role in assuring timely progress in the overall cleanup of the Central Plateau.
