This form documents agreement among the parties listed below authorizing classification of the subject unit as rejected, closed-out, or no action and authorizing backfill of the site, if appropriate. Final removal from the NPL of no action or closed-out sites will occur at a future date.

Description of current waste site condition:

This stack was constructed to exhaust filtered air from REDOX north and south sample galleries and hoods. The stack is located on the outside north wall of the 202-S Building.

Basis for reclassification:

The stack is attached to the 202-S building. The site should be Rejected (Consolidated) with the 202-S WIDS site.
