	Closed Out: <input type="radio"/>	

This form documents agreement among the parties listed below authorizing classification of the subject unit as rejected, closed-out, or no action and authorizing backfill of the site, if appropriate. Final removal from the NPL of no action or closed-out sites will occur at a future date.

Description of current waste site condition:

The unit discharged filtered air from the decontamination room and regulated shop and unfiltered air from the regulated tool room low-level decontamination sink and Special Work Permit (SWP) lobby. The stack is located on the east outside wall of the 202-S building.

Basis for reclassification:

The stack is attached to the 202-S building. The site should be Rejected (Consolidated) with the 202-S WIDS site.
