Dear Mr. Hebdon:

Re: 616 Nonradioactive Dangerous Waste Storage Facility Closure Plan  
(DOE/RL-89-03, Rev 2A, 05/99)

35709

The Washington State Department of Ecology has performed a final walkdown of the 616 Building for the conclusion of work performed in accordance with the 616 Building Closure Plan. The walkdown was conducted on February 13, 2000. The closure has been tentatively approved by Ecology.

These closure activities were carried out prior to the final approval of this unit's closure plan. However, the Sitewide Permit, scheduled to be issued this month, will include final approval of the 616 Building Closure Plan.

If you have any questions regarding this letter, please feel free to contact me at (509) 736-3025. If you have questions regarding the Facility Wide Permit modification schedule, please contact Laura Ruud at (509) 736-5715.

Sincerely,
