

July 16, 2001

Mr. Dennis Faulk  
U.S. Environmental Protection Agency  
712 Swift Boulevard, Suite 5  
Richland, WA 99352

Dear Mr. Faulk,

I am writing to support Alternative 3 of the recently issued Engineering Evaluation/Cost Analysis for the B Reactor. I fully endorse retention of this internationally significant building for public use as a museum. Prior to that use, however, hazards that currently limit or restrict public access must be mitigated. This alternative addresses the issues necessary to move B Reactor one step closer to opening its doors to local, national, and international visitors.

Sincerely,

Thomas E. Marceau  
5208 Blue Heron Blvd.  
W. Richland, WA 99353
