Change Title

Interim Milestones for 200-MW-1 Miscellaneous Waste Group Operable Unit RI/FS Work Plan.

Description/Justification of Change

The 200 Areas Remedial Investigation/Feasibility Study Implementation Plan - Environmental Restoration Program, DOE/RL-98-28, Rev. 0, established the approach for the assessment and remediation of 200 Area past-practice waste sites. Under this strategy, over 800 waste sites are grouped into 23 process-based operable units (OUs), which, in turn, are grouped into 9 major waste categories (e.g., process waste, landfills). This has resulted in a more streamlined remedial investigation/feasibility study (RI/FS) process and more suitable selection of tentative remedial alternatives. Only one OU (200-MW-1) is assigned to the Miscellaneous Waste Category. As a result, the 200-MW-1 OU has been identified as the representative OU for the Miscellaneous Waste Category. Based on the Implementation Plan, Tri-Party Agreement M-13 milestones were established (TPA Change Request M-13-97-01) for the submittal of RI/FS work plans for individual OUs. Under TPA Milestone M-13-00L, three RI/FS work plans were due by December 31, 2001. The 200-MW-1 OU RI/FS work plan is one of three workplans that were delivered to satisfy Milestone M-13-00L.

As specified in the Tri-Party Agreement, Section 11.6, work plans must specify interim milestones for the OU that identify completion dates for major tasks and deliverables specified in the work plans. The 200-MW-1 OU work plan includes a project schedule with target project milestones. Based on this work plan schedule, the following interim milestones are proposed under the Tri-Party Agreement to implement the activities for the RI/FS process for this OU. Modifications to the Tri-Party Agreement milestones are denoted as redline/strikeout for deletions and shading for new text.

M-15-44A: Submit 200-MW-1 OU Remedial Investigation Report - December 31, 2005

M-15-44B: Submit 200-MW-1 OU Feasibility Study and Proposed Plan - December 31, 2006.

Impact of Change.

The interim milestones are consistent with Tri-Party Agreement Major Milestone M-015-00C, Complete all 200 Area Non-Tank Farm OU Pre-ROD Site Investigations under Approved Work Plan Schedules due December 31, 2008.

Affected Documents

The Tri-Party Agreement Action Plan - Appendix D, as amended and Hanford site internal planning, management, and budget documents (e.g., USDOE and USDOE contractor Baseline Change Control documents; Multi-Year Work Plans; Sitewide Systems Engineering Control documents; Project Management Plans; and, if appropriate, site-wide LDR Report requirements), the 200-MW-1 Miscellaneous Waste Group Operable Unit RI/FS Work Plan (DOE/RL-2001-65) and, the 200 Areas Remedial Investigation/Feasibility Study Implementation Plan - Environmental Restoration Program, DOE/RL-98-28, Rev. 0.
