Subject: Revised ESD and Response to EPA Comments

Attached is the revised ESD to the 100-HR-3 Amended Record of Decision. The ESD was revised based on comments received from EPA and Ecology. Also attached are DOE's responses to EPA's comments on the June 2002 version of the ESD, received by email memo dated July 11, 2002. If you have any questions or would like to meet to discuss comment responses, please let me know.

Thanks,
