Dear Ms. Davis:

HANFORD FACILITY MAPPING AND MARKING OF DANGEROUS WASTE
UNDERGROUND PIPELINES FOR FISCAL YEAR 2005 (PERMIT CONDITIONS II.U
AND II.V)

Enclosed, in accordance with Hanford Facility Resource Conservation and Recovery Act Permit, WA7890008967 (Permit) Conditions II.U.3 and II.U.4, is the notification of updates made to the dangerous waste underground pipeline maps for Fiscal Year (FY) 2005. The maps that required updating are identified in the report, and copies of the maps are available on the Hanford Site via the Document Service Centers.

No marking activities, as required by Permit Condition II.V, were conducted during the reporting period. As noted in the FY 2003 and FY 2004 submittals, a portion of the 200 East Area boundary fence remains down in support of the Waste Treatment and Immobilization Plant construction. This portion of fence had been marked as required by Permit Condition II.V to identify the location of the underground pipeline associated with the 216-B-3 Pond. When the fence is replaced and new boundaries are established, the 216-B-3 Pond pipeline markings will be reviewed to ensure compliance with Permit Condition II.V.

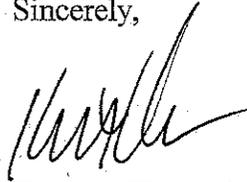

Ms. G. P. Davis
