EDMC Waste Site Reclassification Form

Date Submitted: 6/7/2005	Operable Unit(s): 200-BP-11	Control Number: 2005-023
Originator: CR Webb	Waste Site ID: 600-156	
Phone: 373-5573	Type of Reclassification Action:	
	Rejected: <input checked="" type="radio"/>	
	No Action: <input type="radio"/>	
	Interim Closed Out: <input type="radio"/>	
	Closed Out: <input type="radio"/>	

This form documents agreement among the parties listed below authorizing classification of the subject unit as rejected, closed-out, or no action and authorizing backfill of the site, if appropriate. Final removal from the NPL of no action or closed-out sites will occur at a future date.

Description of current waste site condition:

In 1996, the initial site review documented the site as a construction debris dump containing broken concrete, old wood, and galvanized metal pipes. Site walkdowns done in April 2002 and May 2005 found only scattered fragments of plastic remaining at the waste site location.

Basis for reclassification:

The waste site should be reclassified as Rejected, due to the fact that no hazardous or radiological waste is at this location. A radiological survey, done in November 2005, confirmed the absence of any radioactivity above background levels.
