III. Project Specific Issues

A. Status of RCRA Permit Revisions

1. Kathy Conaway (Ecology) reported that she completed the LERF permit conditions regarding groundwater monitoring. The permit conditions have been reviewed internally. A meeting was scheduled internally with Ecology yesterday to finalize approval of the permit conditions but the meeting was canceled. Matt Mills (Ecology) made a note for the Ecology project manager, Deborah Singleton, to contact Roger Szelmezcza (FH) with the status.

2. Mr. Szelmeczka stated that permit modifications are being prepared to support the solidification treatment unit. The design process for the treatment unit is progressing. Permit mods are also being prepared to support piping modifications that will be needed in the near term. Another permit mod is being developed to allow waste to bypass the main treatment train and go directly into the secondary treatment train.
- B. 310/340 Status
 1. Mr. Szelmeczka stated that there was no new information to report.
 - C. ST4502 Permit Status
 1. As requested before finalizing the ST4502 permit, Ms. Conaway was shown the process for the powerhouse trench discharges last week. Ms. Conaway's intent is to address the discharge point in the permit modification.
 2. Sen Moy (RL) inquired about a due date for providing Ecology the data it requested to further evaluate discharge volumes. It was agreed to set a date of June 30, 2006.
 3. Mr. Szelmeczka suggested adding another project specific issue as item D, ST4500 permit status.
- IV. General Discussions
- A. LERF - This topic was discussed under the status of RCRA permit conditions.
 - B. Brian Dixon (FH) provided a draft letter to Ecology summarizing the process for the delisting exclusion for Condition 2. The purpose of the letter is so that Ecology can indicate whether the information is satisfactory and the delisting petition can be signed off.
- V. Status of Actions (report attached)
- A. 1129 - Ms. Conaway completed the permit conditions in February 2006. The permit conditions remain with Ecology and have not been transmitted to RL.
- VI. New Action Items
- A. There were no new action items.
- VII. Next Project Managers Meeting
- A. The next PMM was scheduled for May 25, 2006.
