TRANSMITTAL OF SAMPLING AND ANALYSIS PLAN FOR SUPPORT ACTIVITIES TO THE 200-UW-1 OPERABLE UNIT, DOE/RL-2005-75, REVISION 1

The purpose of this letter is to transmit the approved Sampling and Analysis Plan for Support Activities to the 200-UW-1 Operable Unit, DOE/RL-2005-75, Revision 1, for your records. This document is in support of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 and Action Memorandum for the Time-Critical Removal Action for Support Activities to the 200-UW-1 Operable Unit.

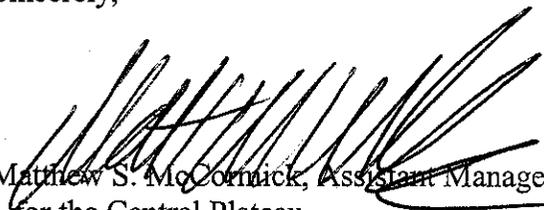

The revised sampling and analysis plan addresses sampling design, and new collection and analysis methodologies for the 200-W-42 Vitrified Clay Pipeline (VCP) waste site located within the 200-UW-1 Operable Unit. The 200-W-42 VCP waste site removal action involves the removal and disposal of the pipeline, and any soil above action levels in the remaining trench down to a depth of 15 feet.
