Jane Hedges, Program Manager
Nuclear Waste Program
State of Washington
Department of Ecology
3100 Port of Benton Boulevard
Richland, Washington 99354

Dear Ms. Hedges:

CALENDAR YEAR (CY) 2006 HANFORD FACILITY ANNUAL DANGEROUS WASTE
REPORT AND CY 2006 HANFORD SITE ANNUAL WASTE TREATABILITY STUDIES
REPORT

0072348
0072349

The CY 2006 Annual Dangerous Waste Report has been prepared as required by Washington Administrative Code 173-303-220, Generator Reporting, WAC 173-303-390, Facility Reporting, and Hanford Facility Resource Conservation and Recovery Act of 1976 Permit Condition I.E.22, Annual Reporting. The report was transmitted via the Internet to the TurboWaste.Net website.

There are no regulated waste management activities to report for CY 2006 under the Federal Building and Richland Industrial Center U.S. Environmental Protection Agency Identification Numbers. A single container of waste was generated during CY 2006 at the 712 Northgate Building. Details of waste management activities for that single container were included in the TurboWaste electronic file transmittal.

For record purposes, a compact disk copy of the CY 2006 Hanford Facility Annual Dangerous Waste Report is enclosed for your information (Attachment 1). Also, enclosed is a paper copy of the CY 2006 Hanford Site Annual Waste Treatability Studies Report (Attachment 2). The Annual Waste Treatability Studies Report is being transmitted pursuant to Washington Administrative Code 173-303-071(3)(r) and (s).

If you have any questions, please contact Pete J. Garcia, Jr., Director, Safety and Engineering, on (509) 372-1909.

Sincerely,

Doug S. Shoop, Assistant Manager
for Safety and Engineering
