REISSUE

MAR 28 2007

07-AMCP-0130

Mr. Ken Niles, Assistant Director
Nuclear Safety Division
Oregon Department of Energy
625 Marion Street Northeast, Suite 1
Salem, Oregon 97301

Dear Mr. Niles:

SUPPLEMENTAL REMEDIAL INVESTIGATION/ FEASIBILITY STUDY WORK PLAN
FOR THE 200 AREAS CENTRAL PLATEAU OPERABLE UNITS, DOE/RL-2007-02,
DRAFT A, VOLUMES I AND II

The purpose of this letter is to submit the attached Supplemental Remedial
Investigation/Feasibility Study Work Plan for the 200 Areas Central Plateau Operable Units,
DOE/RL-2007-02, DRAFT A, Volumes I and II for your review and information.

This draft work plan presents the sampling strategy and rationale for collecting supplemental
remedial investigation data for the Central Plateau soil operable unit waste sites identified during
a recently completed data quality objectives (DQO) development process conducted between RL
and the regulators. This DQO process focused on identification of additional data needs that
would lead to improved capability for the Tri-Party agencies to make final records of decision
for remediation of the Central Plateau soil waste site operable units.

The review is scheduled for completion by May 30, 2007. Please provide any comments on or
before that date. If you have any questions, please contact me, or your staff may contact
Briant Charboneau, of my staff, on (509) 373-6137.

Sincerely,

Matthew S. McCormick, Assistant Manager
for the Central Plateau
