Re: Hanford Site Air Operating Permit, Change Not Requiring Permit Revision

Dear Ladies and Gentlemen:

Per Washington Administrative Code (WAC) 173-401-722(1)(a)(iv), the Department of Ecology, as the permitting authority, is notifying you of a change not requiring permit revision (CNRR). The subject permit is the Hanford Site Air Operating Permit (AOP), #00-05-006, Renewal 1, effective January 1, 2007.

The change being implemented with this CNRR is the relocation of a Memorandum of Understanding (MOU) between the Washington Departments of Ecology and Health, within permit documentation. This MOU describes authorities and responsibilities for these two agencies in the Clean Air Act oversight of the Hanford Site. The change will not be a Title I modification, it will not result in any emissions changes, and will not alter any terms necessary to enforce limitations.

Ms. Kral *et al.*
July 18, 2007
Page 2

The MOU is presently contained within pages 12 to 19 of Attachment 2 of the Permit. The MOU will be removed from this location and replaced with pages identifying the new location of the MOU. The MOU will, hereafter, be Enclosure 1 of the Statement of Basis for Attachment 2.

WAC 173-401-722(1)(b) requires that this notice be attached to the permit by the source and the permitting authority.

This change will be effective upon issuance of Revision B of Renewal 1 of the Hanford AOP.

If you have questions, please contact Doug Hendrickson at 509-372-7983 or Oliver Wang at 509-372-7932.

Sincerely,

Jane A. Hedges
Program Manager
Nuclear Waste Program
