Basis for reclassification:

(For closeout, reference supporting documentation, as listed in Table 2-3.)

These sites were cleaned up by the Department of Energy as part of landlord actions, and outside of the CERCLA process. The remainder of the Operable Unit was Deleted from the NPL in May, 1998 (Declaration of the Record of Decision for the USDOE Hanford 100 Area, 100-IU-1, 100-IU-3, 100-IU-4, and 100-IU-5 Operable Units, 1996; and the EPA Superfund Focus Sheet for the USDOE Hanford 100 Area, May 1998).
