1100 AREA DRAFT CONSOLIDATION REPORT (ENCLOSURE 1) AND DRAFT PROPOSED PLAN (ENCLOSURE 2)

The subject documents are enclosed for your review. To meet the requirements for the 1100-EM-1 Hanford Federal Facility Agreement and Consent Order schedule, review of the documents is being conducted in parallel by the U.S. Department of Energy (Headquarters and the Richland Field Office), the U.S. Environmental Protection Agency (EPA), and the State of Washington Department of Ecology (Ecology). The documents are being revised for public review; public review is scheduled for April 5, 1993. To meet this date, comments on the 1100 Area consolidation Report are needed by March 11, 1993; comments on the Proposed Plan would be appreciated at this time also. However, we can accommodate receiving comments on the Proposed Plan until March 15, 1993.

The 1100 Area Consolidation Report is to be addended to the "Final Remedial Investigation/Feasibility Study - Environmental Assessment (RI/FS-EA) Report for the 1100-EM-1 Operable Unit, Hanford." A preliminary (working) draft was provided to most of you on March 3, 1993, to facilitate this quick review.

The Proposed Plan is a revision of the Draft Proposed Plan for the 1100-EM-1 Operable Unit (OU), which has been reviewed and commented on by EPA and Ecology. The revised version enclosed has been modified to incorporate information about the additional OUs, 1100-EM-2, 1100-EM-3 and 1100-IU-1, in the 1100 Area.

These documents are being revised and integrated to expedite the investigation and remediation of the entire 1100 National Priority List area. We appreciate your efforts in complying with this quick review. If you have questions about this letter or the enclosed documents, please call Mr. Bob Stewart of my staff on (509) 376-6192.

Sincerely,

Roger D. Freeberg, Director
Environmental Restoration Division
