Dear Messrs. Day and Nord:

LOW LEVEL LABORATORY

At the June 13, 1991, Hanford Federal Facility Agreement and Consent Order milestone review meeting, Tim Nord requested copies of correspondence on the subject of placing a hold on the construction of the Low Level Laboratory (Milestone M-14). Attached is a list of the enclosed correspondence (10). DOE Filed Office, Richland (RL) previously provided you with a letter discussing this situation and provided a draft change request. RL would like to meet with U. S. Environmental Protection Agency and the State of Washington Department of Ecology within the next few weeks to further discuss this issue, and where we go from here. If you have any question please call me, on (509) 376-6798.

Sincerely,

Steven H. Wisness
