Mr. David B. Jansen, P.E.  
Hanford Project Manager  
State of Washington  
Department of Ecology  
P.O. Box 47600  
Olympia, Washington 98504-7600

Dear Messrs. Day and Jansen:

REPLACEMENT OF AIR SAMPLE PUMP AT THE 242-S EVAPORATOR ON HANFORD FEDERAL FACILITY AGREEMENT AND CONSENT ORDER MILESTONE M-17-18B AND 216 CONSENT ORDER DE 91NM-177

- References 1) Consent Order No. DE 91NM-177 (216 Consent Order), State of Washington Department of Ecology (Ecology) and U.S. Department of Energy (DOE), December 23, 1991.
- 2) Hanford Federal Facility Agreement and Consent Order (Tri-Party Agreement), Ecology, U.S. Environmental Protection Agency (EPA), DOE, May 1989, and amendments.

The Tri-Party Agreement (TPA) interim Milestone M-17-18B, and 216 Consent Order Section 8, Table 6 interim operating restriction, due for completion in September 1992, reads as follows:

"Replace the Air Sample Pump at the 242-S Evaporator and eliminate the seal water contribution to the 242-S Evaporator Steam Condensate."

A recent review of the 242-S Evaporator identified that the air sampler system is no longer needed. The system has been shut off and the drain line cut and capped. The seal water is no longer a contributor to the 242-S Evaporator Steam Condensate.

With the air sampler system being shut off, and the subsequent deactivation of the Air Sample Pump, this TPA interim milestone, and 216 Consent Order interim operating restriction are considered to have been met.

OCT 1992

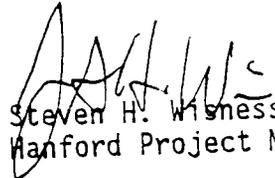

SEP 30 1992

Messrs. Day and Jansen  
92-LWD-009

-2-

If you or your staff have any questions regarding this milestone, please contact D. C. Bryson of the Waste Management Division, on (509) 372-0738.

Sincerely,

  
Steven H. Wisness  
Hanford Project Manager
