SUBJECT: NORTH SLOPE AREA TOPOGRAPHIC MAP

Please find attached a North Slope Topographic map previously listed as a submittal item to EPA on December 13, 1991. At the time of that submittal only one copy of the map was available. As agreed to by all parties, RL provided that copy of the map to PRC Environmental Management, Inc. (EPA's contractor) as PRC required the map in order to prepare the RCRA Facility Assessment report for EPA.

At the time of the December 13 submittal I informed you that a copy of the map would be provided to your office when it had been duplicated.

Please call me with any questions.
