Attachment 2

Unit Managers' Meeting
2101-M Pond
740 Stevens Center, Room 1416
Richland, Washington

Meeting Held July 13, 1993
From 1:00 to 3:00 p.m.

Summary of Discussion and Commitments/Agreements

1. Approval of Past UMM Minutes

The June 9, 1993, Unit Managers' Meeting Minutes were reviewed and signed by the Unit Managers.

2. Status Action Items

- No open action items.

3. Status Closure Activities

- Revision 2 Submitted to Ecology 6/30/93

Ecology (C. O. Ruud) affirmed that the 2101-M Pond Closure Plan, Revision 2 was received. Further, WHC (W. G. Cox) was asked about the recent effluent sampling, Ecology (C. O. Ruud) was invited but was not available. WHC/RL (W. G. Cox, and R. G. McLeod) had no knowledge of the sampling event. WHC (W. G. Cox) stated that information about the sampling and copies of the results will be gathered.

Ecology (C. O. Ruud) asked how the unit could be clean closed if the intention was to continue to use it. It was explained that with the former laboratory drains closed the heating, ventilation, and air conditioning (HVAC) system was a closed loop discharging clean water. There is no danger of dangerous waste being disposed of through the HVAC system to the pond. It was further explained that all water discharge to the pond would cease by June 1995, in compliance with the Hanford Federal Facility Agreement and Consent Order.

There was a short discussion about the stage of development that the closure plan is currently in. RL (R. G. McLeod) stated that there is currently no funding for the 2101-M Pond next year, therefore, finalization of the approval process needs to be expedited. RL further stated that with Ecology's concurrence on the Notice of Deficiency Response Table and the letter from Ecology stating that clean closure is recommended, RL considers the site clean closed. The only items remaining are for Ecology to verify that the commitments made in the response table have been met in revision 2 and the public review. RL (R. G. McLeod) stated that Ecology will need to provide a status of the approval of the plan to RL after they have reviewed it again.

93130241939

**Summary of Discussion and Commitments/Agreements
continued**

Ecology (C. O. Ruud) was asked by RL (R. G. McLeod) to provide by the next Unit Managers' Meeting a date that RL could expect to hear from Ecology regarding the approval of the closure plan. Ecology (C. O. Ruud) committed to provide a date by the next Unit Managers' Meeting.

RL (R. G. McLeod) asked Ecology (C. O. Ruud) if the closure plan would be able to go for public review on its own or if it would need to be included with the public review of the Hanford Facility Permit. Ecology (C. O. Ruud) responded that he did not know at this point, but that he would check on that.

- Status Unit Manager Documentation Turnover

This subject was not discussed. It will be discussed during the next Unit Managers' Meeting.

- 4. New Business**
- No New Business

- 5. Set Next Meeting Date**

The next meeting was set for August 10, 1993, in Richland, Washington.
