Richland, Washington 99352

Re: Emission Unit Closure and Withdrawal of Order DE06NWP-002

Reference: Email dated October 22, 2008, R. Woodruff, Battelle/PNNL, to D. Hendrickson, Ecology, *Submittal for Closure Inspection of DE06NWP-002 for Operation of Diesel Compressors at the 336 Building.*

Dear Mr. Brockman:

The Department of Ecology requested and received information regarding the closure of your diesel-fired units at the Hanford 336 Building site as permitted under Order DE06NWP-002 (please see Reference).

Ecology viewed the current progress in demolition of the 336 Building and reviewed the operating information supplied in the Referenced transmittal. We find the facility operations in 2008, up to the time of cessation and emission unit removal, complied with the conditions of Order DE06NWP-002.

As you no longer have the equipment or facility to undertake work described in Order DE06NWP-002, Ecology deems this Order void and hereby withdrawn entirely.

Ecology will initiate amending the Hanford Site Air Operating Permit (AOP), #00-05-006, to identify removing Order DE06NWP-002. If you wish to appeal the withdrawal of the authorization contained within Order DE06NWP-002, you may do so by application within 30 days of receipt of this letter to:

Pollution Control Hearings Board  
P.O. Box 40903  
Olympia, Washington 98504-0903

Mr. David A. Brockman  
November 13, 2008

Concurrently, copies of the application must be sent to:

Washington State Department of Ecology  
P.O. Box 47600  
Olympia, Washington 98504-7600

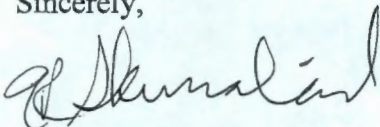

Washington State Department of Ecology  
3100 Port of Benton Boulevard  
Richland, Washington 99354

These procedures are consistent with the provisions of Chapter 43.21B of the Revised Code of Washington, and the rules and regulations adopted thereunder.

Thank you for your cooperation and staff support in completing this emission unit closure investigation.

If you have questions, please contact Doug Hendrickson at 509-372-7983.

Sincerely,

Ron Skinnarland  
Waste Management Section Manager  
Nuclear Waste Program
