

FINAL MEETING MINUTES

Environmental Restoration Storage and Disposal Facility (ERSDF)

June 8, 1993 9:00
Ecology Conference Room, 7601 W. Clearwater

1. ACTION ITEM STATUS:

- ERSDF-8 Pam Innis Rich Hibbard Comments were requested of both EPA and Ecology on the annotated outline which covers application of CAMU to the ERSDF. **OPEN 6/8/93.**
- ERSDF-10 Moses Jaraysi Removal and treatment of contaminated soils and solid waste is a planned option for remediation of source operable units. It may be necessary/optimal to locate treatment facilities outside of source operable unit boundaries. Determine the permitting requirements for this situation. **Open 6/8/93.**

2. ACTION ITEMS ASSIGNED AT THIS MEETING:

- ERSDF-12 Merl Lauterbach Prepare and submit for discussion a listing of proposed documents to assist in guiding project work scope. **OPEN 6/8/93.**
- ERSDF-13 Pam Innis Be prepared to discuss the proposed EPA parallel document process at the 6/22/93 meeting. This should include an explanation of the need for a CERCLA ROD and what documentation if any will satisfy the RI/FS requirements. **OPEN 6/8/93.**
- ERSDF-14 Merl Lauterbach Ecology requested a presentation from the 100 Area treatability test group of new tests needed. This should occur after the results of the modeling exercise are complete. **OPEN 6/8/93.**

3. AGREEMENTS:

- USDOE will proceed as if Ecology has already received HSWA authority and will develop a SEPA checklist for this project.

9413135.1694

4. AGENDA ITEMS:

- USDOE reviewed last months activities for the benefit of Rich Hibbard. Particular emphasis was placed on the fourteen original and two additional trench design cases.
- The need for SEPA was discussed. In order to ensure that State concerns were addressed A SEPA checklist will be prepared for the permit modification (see agreement above).
- Three regulatory mechanisms for approving treatment facilities were discussed. They were CERCLA ROD driven, CAMU Permit driven, and RCRA permitted treatment facility. Each of these options has distinct pros and cons including limiting the types of waste available for treatment.
- Rich Hibbard described a meeting he held with Mary Getchell (Ecology) concerning public involvement. He explained that the at the Project Managers meeting in May USDOE agreed to submit a public involvement plan with the package (permit modification application?).
- Ecology agreed to submit comments on the siting study and site characterization later this week.
- USDOE handed out a summary of modeling assumptions to be reviewed prior to the May 16 meeting at USGS.
- The ecology survey was discussed. USDOE stated that it was 60% complete and that Loggerhead Shripe and Swanson Hawk were located on the proposed site. They also stated that the rad survey will be delayed until birds are finished nesting (early July).

5. AGENDA FOR JUNE 22:

- Presentation and discussion on proposed documents.
- Discussion of dual pathway for RI/FS.
- Clarification of EPA and Ecology comments on Siting Study and Site Characterization Plan.
- Permitting treatment facilities.
- Creation of list of other technical requirements (e.g., frequency of designation required for disposal).

**ENVIRONMENTAL RESTORATION - STORAGE AND DISPOSAL FACILITY
(ERSDF) MEETING MINUTES**

Distribution List:

Jay Augustenborg - DOE-RL/WMD
Suzanne Clarke - Dames & Moore
Michael Collins - DOE-RL/PMD
Audree DeAngeles - PRC
Vern Dronen - WHC
Julie Erickson - DOE-RL/ERD
Carrie Sikorski/Cathy Massimino - EPA Region 10
Bryan Foley - DOE-RL/ERD
Jim Goodenough - DOE-RL/ERD
George Hofer - EPA Region 10
Mark Janaskie - DOE-HQ
Merl Lauterbach - WHC
Toby Michelena/Richard Hibbard - Ecology, Lacey
Dave Nylander/Moses Jaraysi - Ecology, Kennewick
Ann Price/Dave Fagan - EPA Headquarters
Fred Roeck - WHC
Ward Staubitz - USGS
Darci Teel/Ted Wooley - Ecology, Kennewick
