Mr. Dave C. Nylander  
Nuclear and Mixed Waste  
State of Washington  
Department of Ecology  
7601 W. Clearwater, Suite 102  
Kennewick, Washington 99336

Mr. Douglas R. Sherwood  
Hanford Project Manager  
U.S. Environmental Protection Agency  
712 Swift Boulevard, Suite 5  
Richland, Washington 99352

Dear Messrs. Nylander and Sherwood:

PAGE CHANGES FOR THE "100 AREA FEASIBILITY STUDY PHASES 1 AND 2," DRAFT B (DOE/RL-92-11)

Enclosed please find page changes for the subject document submitted by the U.S. Department of Energy, Richland Operations Office (RL), to the U.S. Environmental Protection Agency (EPA) and the State of Washington Department of Ecology (Ecology). The purpose of these page changes is to include an identification and brief description of technologies for remediation of potential river contamination and contaminated structures (please refer to Appendix F) in the "100 Area Feasibility Study Phases 1 and 2," Draft B, as agreed to by RL, EPA, and Ecology on September 24, 1993. Copies of the subject document that were provided to EPA and Ecology on September 22, 1993, at the Hanford Project Managers' Meeting, did not contain this information.

By submitting the enclosed page changes to the "100 Area Feasibility Study Phases 1 and 2," Draft B, RL contends that the subject document is complete as agreed to with EPA and Ecology (reference: RL letter to D. R. Sherwood and R. F. Stanley from S. H. Wisness, "Schedule for Submittal of the 100 Area Feasibility Study Phases 1 and 2," dated October 21, 1993). RL requests that EPA and Ecology take action to approve the subject document which will provide the basis for preparation of detailed analysis of remedial alternatives for waste sites in all 100 Area operable units.

Please address any comments or questions regarding this correspondence or Hanford Site 100 Area past-practice environmental investigations to Mr. Eric Goller on (509) 376-7326.

Sincerely,

*Steven H. Wisness*  
Steven H. Wisness  
Hanford Project Manager
