Dear Messrs. Stanley and Findley:

616 NONRADIOACTIVE DANGEROUS WASTE STORAGE FACILITY PART B PERMIT APPLICATION
(TSD: S-6-1)

This letter transmits the 616 Nonradioactive Dangerous Waste Storage Facility (NRDWSF) Part B Permit Application in accordance with the Resource Conservation and Recovery Act (RCRA), as amended, and the State of Washington Dangerous Waste Regulations.

This permit application supersedes information for this facility included in the "RCRA Part B Permit Application - Nonradioactive Dangerous Waste Landfill and Storage Facility" previously submitted to the Washington State Department of Ecology on November 8, 1985.

Submitted as an attachment to this letter is the State Environmental Policy Act (SEPA) Environmental Checklist. The environmental impacts of the NRDWSF are addressed in this checklist.

As part of the permit application submittal process, Section 3004(u) of the Hazardous and Solid Waste Amendments requires identification of hazardous waste management units. This information was previously provided in the Hanford Site Waste Management Units Report submitted to the U.S. Environmental Protection Agency in May 1987.

Messrs. Stanley and Findley
