Waste Site Reclassification Form

Date Submitted: 10/26/2004	Operable Unit(s): 200-ST-1	Control Number: 2004- 113
Originator: CR Webb	Waste Site ID: 2607-FSN	
Phone: 373-5573	Type of Reclassification Action:	
	Rejected: <input type="radio"/>	
	No Action: <input type="radio"/>	
	Interim Closed Out: <input type="radio"/>	
	Closed Out: <input checked="" type="radio"/>	

This form documents agreement among the parties listed below authorizing classification of the subject unit as rejected, closed-out, or no action and authorizing backfill of the site, if appropriate. Final removal from the NPL of no action or closed-out sites will occur at a future date.

Description of current waste site condition:

The 2607-FSN Septic Tank system received sanitary wastewater and sewage from the 609-A Building and disposed of it through a sub-surface soil absorption system. The system was abandoned and replaced by the 6607-4 septic system in 1988. The tank has been filled with rock.

Basis for reclassification:

The septic system was abandoned in 1988 and replaced by a regional system. This site should be reclassified to Closed Out. Washington Administrative Code 246-272-18501 does not require any additional notifications.
