Dear Ms. Charboneau:

The Washington State Department of Ecology (Ecology) approves your request to cancel Approval Order DE08NWP-001. The effective cancellation date of Approval Order DE08NWP-001 is September 30, 2015.

Since the engine covered under the Approval Order remains on the Hanford Site in an operating capacity and is subject to 40 Code of Federal Regulations 60 (40 CFR 60), Subpart IIII, it will be incorporated into the Hanford Air Operating Permit (00-05-006) per your request and in accordance with the Federal and Washington Clean Air Acts. All conditions and requirements associated with 40 CFR 60, Subpart IIII for the engine are effective October 1, 2015.

The conditions in the Notification of Off-Permit Change attached to your request will be evaluated before incorporation into the next revision of the Hanford Air Operating Permit. However, at this time, Ecology has not reviewed and accepted the specific conditions and requirements you have identified in the Notification. It is incumbent upon you, as the permittee, to ensure all conditions and requirements associated with 40 CFR 60, Subpart IIII, for this engine are met, even if conditions and requirements are not listed in the Notification.

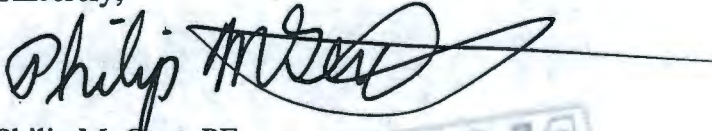

Ms. Stacey L. Charboneau
