SUMMARY OF CONFERENCE

The telephone call was made to obtain clarification on Ecology's table (attached) summarizing the acceptance of responses to the Grout Treatment Facility (GTF) Notice of Deficiency Response (NOD) Table.

Responses which need minor changes for Ecology's acceptance will need to be reviewed by Ecology prior to indicating concurrence. Several of the responses needing minor change for Ecology's concurrence needed further discussion to ensure the appropriate changes were being made.

Joe Witczak is retracting #69 from the list since Ecology believes that the 48 hour leak-test may need to be extended. His concern is based on the leakage obtained from the PSW vault that was discussed at the last GTF Unit Managers meeting on January 23, 1990.
