Teri,

Please forward this message to the trustees. Thanks.

Jamie

Folks,

I've already scheduled Conference Room 142 in the Federal Building for our next meeting. It's the conference room on the 1st floor (no badges required) where we hold many of our public meetings. It seats up to 50 people, so we'll have plenty of room for visitors.

I'm also attaching a file of a Power Point presentation that I prepared and presented to RL senior management. It addressed the tribal concerns/issues with regards to the PAD, but it also included a lot of NRTC/NRDA background information. I thought it would be helpful for you to see what Keith has seen (as a starting point). If you can't read the file and want a hard copy, let me know.

Jamie

Let me know ASAP and I will get the conference number set up. We don't need all of the item agenda topics for the rest of the meeting at this time, just be thinking about what is the most important use of our time with Keith Klein and not worry like Dan says whether all the other people can make it or not.

Tom

Draft Agenda for NRTC Meeting with Keith Klein

Tom: Here is a rough draft of a possible agenda when the council meets with Keith Klein. In interests of time I thought we could conduct some of our usual agenda items after Klein leaves. We are also going to need a large conference room to accommodate additional visitors. The names I have put next to each item can be changed. I chose a couple of topics for discussion and these can also be changed. I also think we need to meet when Keith Klein is available. I don't think we should set the meeting time based on Tom Fitzsimmons schedule or any others. Klein is the one we need to talk to. All the other managers that may come are just window dressing.

We may want to meet the day before to go over what we are going to say.

8:30 Welcome and Introductions (Tom O'Brien)

Explain purpose of meeting (informational etc)

With each introduction have each person tell who they represent, years on the council and any other pertinent information

I could outline the HNRTC goals and objectives based upon the MOA and NRDA regs for site cleanup so Keith can get a feel for the where we are coming from.

9:00 NRTC History (Susan Hughes)

a. Duration, purpose, CERCLA, meetings, workgroups, major accomplishments (1100 PAD, mitigation projects, salmon/chromium etc)
Use similar language found in Hanford Reach article

9:20 ERDF (Dan Landeen, Jay McConnaughey)

- b. Open discussion of DOE trustee/PRP role
- c. What does DOE expect from the council?

(See attached file: danl.vcf)
