Re: Draft Sampling and Analysis Plan, Uranium Oxide (UO₃) Plant Process
Condensate Effluent to 216-U-17 Crib. WHC-SD-CP-PLN-011. File Project W-049H, TPA M-17-12A.

Dear Mr. Izatt:

I have reviewed the draft sampling and analysis plan for the UO₃ Plant process condensate that you gave me at our meeting July 24, 1992. I have the following comments:

I find this document to be thorough, correct, and in substantial accordance with our regulations. Further, it incorporates our requirements from previous reviews.

I have asked Ms. Elizabeth Ann Wiley of our staff to review the QA/QC document that you gave me at the same meeting. I have asked her to review this document next week, confer with Mr. Sherwood at EPA, and attend the meeting scheduled for July 30, 1992. Please inform Ms. Wiley of the time and location of this meeting by telephone ((206) 493-9426).

Please consider this letter as formal approval of the SAP plan as soon as a formal submission with letter of transmission is received by this office.

Provided the sampling procedure shown in your draft submittal is followed, we can see no obstacle to your proceeding to process the accumulated waste at the UO₃ Plant.
