Dear Messrs. Alexander and Sherwood:

TRANSMITTAL OF "THE CHROMIUM GROUNDWATER PLUME WEST OF THE 100-D/DR REACTORS: SUMMARY AND FISCAL YEAR 1999 UPDATE," BHI-01309, REV. 0

Attached is a copy of the subject document for your information. This report evaluates the data collected from the installation of the 12 groundwater wells completed and sampled in FY 1999. These wells were installed to characterize the chromium plume in the area west of the 100-D/DR Reactors. This effort supports decisions regarding the design and implementation of the In Situ Redox Manipulation technology.

If you have any questions, please contact me at (509) 373-9631.

Sincerely,

Arlene C. Tortoso, Project Manager  
Groundwater Projects
