Dear Ms. Charboneau and Mr. Ciucci:

The Department of Ecology (Ecology) reviewed your letter and enclosures, received on February 26, 2016 (Reference 1). The letter included corrective actions for items of non-compliance identified in Ecology's letter and compliance report associated with the B Plant Complex dangerous waste inspection (Reference 5). Ecology has determined items of non-compliance 2 through 8 from the August 19, 2014, inspection have been addressed (References 1 through 4).

However, the following item of non-compliance identified in the compliance report (Item 1) has not been adequately addressed.

WAC 173-303-070(3), Designation Procedures: Ecology has determined the U.S. Department of Energy and CH2M HILL Remediation Plateau Company have failed to designate waste stored in TK-2-1, according to procedures.

Not correcting areas of non-compliance may result in an escalation of enforcement and the issuance of an administrative order, a penalty (up to \$10,000 per day, per violation), or both, as provided by the Hazardous Waste Management Act (Revised Code of Washington 70.105.080 and .095).

You may contact me at edward.holbrook@ecy.wa.gov or (509) 372-7909, if you have questions or need further information.

Sincerely,

Edward Holbrook
Dangerous Waste Compliance Inspector
Nuclear Waste Program
