

Change Number M-94-09-01	Federal Facility Agreement and Consent Order Change Control Form <small>Do not use blue ink. Type or print using black ink.</small>	Date: August 4, 2009
Originator: R. F. Guercia	Phone: (509) 376-5494	
Class of Change: <input checked="" type="checkbox"/> I - Signatories <input type="checkbox"/> II - Executive Manager <input type="checkbox"/> III - Project Manager		
Change Title: Modify Tri-Party Agreement Milestones M-094-00, M-094-03, M-094-07, M-094-08, and M-094-09 to support long term mission of the Pacific Northwest National Laboratory		
Description/Justification of Change: The Department of Energy determined in November 2006 that it needed to retain certain buildings and utilities within the 300 Area to support the ongoing mission of the Pacific Northwest National Laboratory. Therefore, the previous strategy and schedule for declaring all facilities within the 300 area as surplus and remediating the facilities is being modified. Specifically, retention of the 331 Life Sciences Laboratory and the 325 Radiochemical Processing Laboratory complexes require waste sites covered by this milestone series to remain unremediated until the facilities associated with them are no longer needed (approximately 20 years). The waste sites associated with these facilities are mainly process sewer lines that have been flushed, drained and capped, or repaired to allow continued operation and are considered stable. This will also impact portions of the below grade demolition of the 327 facility. Closure of the 324 facility is required by M-089-00 and is being deleted from M-094-03. Description/Justification of Change and Tri-Party Agreement milestones are continued on pages 2-3 of this Tri-Party Agreement Change Package.		
Impact of Change: Modifies existing Tri-Party Agreement Milestone M-94-00 and Interim Milestones M-094-03, M-094-07, M-094-08 and M-094-09 to allow Pacific Northwest National Laboratory operated facilities to remain in use while the remainder of the 300 Area undergoes cleanup. Deletes reference to the 324 facility from the M-094 milestone series. Modifies regulatory requirements governing Hanford remediation activities. Administrative action is required to incorporate this change in Appendix D of the Tri-Party Agreement.		
Affected Documents: The Hanford Federal Facility Agreement and Consent Order, as amended, and Hanford Site internal planning management and budget documents (e.g., USDOE and USDOE contractor Baseline Change Control documents; Multi-Year Work Plan; Sitewide Systems Engineering Control Documents; Project Management Plans, and, if appropriate, LDR Report requirements).

Modifications established by approval of this Tri-Party Agreement Change Control Form are denoted as ~~strikeout~~ for deletions/modification and **shading** for new text.

Milestone Number	Milestone Description	Completion Date
M-094-00	<p>Complete disposition of 300 Area surplus facilities identified in the removal action work plan(s) for the 300 Area facilities to be defined as the 220 facilities listed in the Hanford River Corridor Closure Contract Solicitation #DE- RP06-04RL14655.</p> <p>Completion of facility disposition is defined as the completion of deactivation, decontamination, decommissioning, and demolition and obtain EPA and/or Ecology approval of the appropriate project closeout documents. The cleanup of 300-FF-2 waste sites associated with 300 Area surplus facilities and utilities will be performed in accordance with Tri-Party Agreement Major Milestone M-016-00B, M-016-69, and approved Remedial Design/Remedial Action Work Plans for 300 Area waste sites by the specified due date as approved in Removal or Remedial Action Work Plans.</p>	9/30/2015
M-094-03	Complete Disposition of the following surplus facilities: 303M, 332, 333, 334, 334A, 3221, 3222, 3223, 3224, 3225, 324, 324B, 327.	9/30/2010
M-094-07	<p>Complete the selected removal and/or remedial actions that are selected for 6 of the following 19 high priority facilities: 305B, 306E, 306W, 307 Retention Basins, 308, 309, 321, 323, 324, 324B, 325, 326, 327, 329, 333, 340, 3706, 307 trench and 3720; to include the 306E, 306W, 3720 and 305B facilities</p> <p>The 307 trench (also known as the 316-3 waste site) is a candidate waste site. Completion of this milestone commitment for the 307 trench includes the necessary characterization to determine if further remediation is necessary and will be met when the sampling results have been accepted by EPA. The selected removal action for the other 18 facilities listed is or is expected to be completion of deactivation, decontamination, decommissioning, and demolition (D4) of the facility. In accordance with approved work plans, foundation, subsurface structures, and/or soil contamination can be deferred to a comprehensive remedial action program, but waste sites will be established in the interim to track this cleanup commitment.</p>	12/30/2009 See TPA-CR M-94-04-01 Table 1

M-094-08	<p>Complete the selected removal and/or remedial actions that are selected for 12 of the following 19 high priority facilities: 305B, 306E, 306W, 307 Retention Basins, 308, 309, 321, 323, 324, 324B, 325, 326, 327, 329, 333, 340, 3706, 307 trench and 3720.</p> <p>The 307 trench (also known as the 316-3 waste site) is a candidate waste site. Completion of this milestone commitment for the 307 trench includes the necessary characterization to determine if further remediation is necessary and will be met when the sampling results have been accepted by EPA. The selected removal action for the other 18 facilities listed is or is expected to be completion of deactivation, decontamination, decommissioning, and demolition (D4) of the facility. In accordance with approved work plans, foundation, subsurface structures, and/or soil contamination can be deferred to a comprehensive remedial action program, but waste sites will be established in the interim to track this cleanup commitment.</p>	12/31/2011
M-094-09	<p>Complete the selected removal and/or remedial actions that are selected for 15 of the following 19 high priority facilities: 305B, 306E, 306W, 307 Retention Basins, 308, 309, 321, 323, 324, 324B, 325, 326, 327, 329, 333, 340, 3706, 307 trench and 3720; to include the 323 facility and the 307 trench.</p> <p>The 307 trench (also known as the 316-3 waste site) is a candidate waste site. Completion of this milestone commitment for the 307 trench includes the necessary characterization to determine if further remediation is necessary and will be met when the sampling results have been accepted by EPA. The selected removal action for the other 18 facilities listed is or is expected to be completion of deactivation, decontamination, decommissioning, and demolition (D4) of the facility. In accordance with approved work plans, foundation, subsurface structures, and/or soil contamination can be deferred to a comprehensive remedial action program, but waste sites will be established in the interim to track this cleanup commitment.</p>	9/30/2013
