Re: Air Operating Permit Inspection - Waste Treatment and Immobilization Plant Construction
Heaters under Order DE07NWP-004

Dear Ms. Olinger:

This letter transmits the results of an inspection conducted December 10, 2007, by the Department of Ecology of Hanford Site air emission sources regulated under Washington Administrative Code (WAC) 173-400, WAC 173-401, and WAC 173-460.

The Waste Treatment and Immobilization Plant construction heaters and dehumidifiers were inspected based upon initial operations under Order DE07NWP-004 and Air Operating Permit (AOP) Number 00-05-006. We find the facility operations to be in compliance with AOP and Order DE07NWP-004 requirements.

Ecology is pleased with the level of coordination and cooperation achieved with the conduct of this inspection. If you have any questions, contact me at 509-372-7983.

Sincerely,

Doug Hendrickson, P.E.
Lead Air Engineer
Nuclear Waste Program
