Change Title Transfer the 618-5 Burial Ground from the 300-FF-1 Operable Unit to the 300-FF-2 Operable Unit		
Description/Justification of Change The change transfers the 618-5 Burial Ground from the 300-FF-1 Operable Unit to the 300-FF-2 Operable Unit. 618-5 Burial Ground is currently a waste management unit within the 300-FF-1 Operable Unit. It has been carried through the RI/FS process up to and including the preparation of the 300-FF-1 and 300-FF-5 Proposed Plan. During development of the proposed plan, it became clear that this change is warranted. The current risk estimate for exposure to soils and debris at the 618-5 Burial Ground under an industrial scenario indicate that an action may not be necessary. However, because of the uncertainty in the current data and the risk estimate, the Tri-Parties agreed and stated in the proposed plan that the 618-5 Burial Ground will be further evaluated as part of the 300-FF-2 Operable Unit, which contains the rest of the burial grounds for the 300 Area. The proposed plan also states that excavation of the Burial Ground will provide information to help develop remedial decisions on other burial grounds.		
Impact of Change No TPA milestones are affected by this change. The 618-5 Burial Ground will be reevaluated on the time schedule of the 300-FF-2 Operable Unit. This change will require a change in Appendix C of the Tri-Party Agreement.		
Affected Documents Hanford Federal Facility Agreement and Consent Order, Appendix C.
