Mr. Stan Sobczyk  
Nez Perce Tribe  
P.O. Box 305  
Lapwai, Idaho 83540

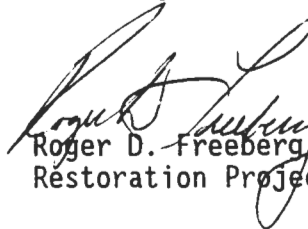

Dear Mr. Sobczyk:

USRADS SURVEY FOR D ISLAND

The subject survey report which you requested during a telephone conversation with Mr. Randy Brich is provided for your information (Attachment 1). Additionally, we have provided the preliminary results of gamma ray spectra which were collected on D Island recently (Attachment 2). These spectra were collected on D Island at three locations -- upstream end, middle (near the TLD station), and downstream end. Although these spectra were collected as part of Pacific Northwest Laboratory routine sitewide surveillance project, they may be of interest to you in your quest for a more complete understanding of the spatial distribution of cobalt-60 specks on D Island.

Should you have any questions or comments concerning this information please contact Mr. Randy Brich at (509) 376-9031 or via e-mail at [randall\\_f\\_brich@rl.gov](mailto:randall_f_brich@rl.gov).

Sincerely,

  
Roger D. Freeberg, Director  
Restoration Projects Support
