RE: Grout Treatment Facility Dangerous Waste  
Permit Application

Dear Mr. Wisness:

I have received your February 6, 1991, letter requesting a modification to a requirement in our January 10, 1991, notice of deficiency. The cover letter to that NOD requires the submittal of a revised Part B permit application for the grout treatment facility by April 12, 1991. My letter today formally denies the alternative proposal outlined in your request. However, I am willing to omit the requirement to submit revised appendices. Therefore, only Chapters 1 through 14 need to be submitted as a formal revision. The requirement to submit a revised NOD Response Table remains unchanged.

Technical inquiries regarding this NOD should be directed to Ecology's Grout Unit Manager, Mr. Joe Witczak at (206) 438-7557.

Sincerely,

Timothy L. Nord

Nuclear and Mixed Waste Management
