Richland, WA 99352

Mr. William D. Adair
Fluor Daniel Hanford, Inc.
P.O. Box 1000, MSIN: H6-21
Richland, WA 99352

Dear Messrs. Rasmussen and Adair:

Re: Re-Certification of Part A, Form 3(s), the General Information Document (GID), and Part B Permit Applications

This letter is in reference to the re-certification of certain Part A, Form 3(s), the GID, and Part B Permit Applications included in the Hanford Facility Resource Conservation and Recovery Act (RCRA) Permit, Revision 3. These units are owned and operated by the U.S. Department of Energy and co-operated by Fluor Daniel Hanford, Inc.

Due to the Washington State Department of Ecology's (Ecology) staff involvement in the annual budget review activities in the last six (6) weeks, review of the above mentioned documents was not completed in time to enable you to meet the March 3, 1997, deadline set for this activity. Therefore, Ecology is extending the deadline date to April 15, 1997.

Exceptions to the above extension are; (1) The Part A, Form 3(s) for all units being included in the Hanford Facility RCRA Permit in Modification Cycle C scheduled for 1997, and (2) the Part A, Form 3 for the 222-S Laboratory, which is on a completely separate revision schedule.

If you have any questions regarding the above, please contact me at (509) 736-3016.

Sincerely,

Moses Jaraysi
