Waste Site Reclassification Form

Date Submitted: 3/31/2000	Operable Unit(s): 200-SS-1	Control Number: 2000-031
Originator: J. W. Golden	Waste Site ID: 2715-EA HWSA	
Phone: 376-6961	Type of Reclassification Action:	
	Rejected <input checked="" type="radio"/> Closed-Out <input type="radio"/> No Action <input type="radio"/>	

This form documents agreement among the parties listed below authorizing classification of the subject unit as rejected, closed-out, or no action and authorizing backfill of the site, if appropriate. Final removal from the NPL of no action or closed-out sites will occur at a future date.

Description of current waste site condition:

The 2715-EA HWSA 90 Day Storage Area is no longer active. The site is a covered concrete pad and an adjacent fenced area. The location is now used for storing new drums, non-regulated waste, scrap metal for recycling, and flammable materials (inside marked metal cabinets).

Basis for reclassification:

There was no evidence of current or past leaks observed during the April 2000 field visit, and all containers of dangerous/hazardous waste have been removed. Thus, the site has been closed in compliance with WAC 173-303-630(10): all dangerous waste and dangerous waste residues have been removed.
