Mr. Timothy L. Nord
Hanford Project Manager
State of Washington
Department of Ecology
Mail Stop PV-11
Olympia, Washington 98504-8711

Dear Mr. Nord:

PAGE CORRECTION TO THE HANFORD SITE DANGEROUS WASTE PART A PERMIT APPLICATION (WA7890008967) (S-2-1)

Enclosed is a page correction, Page 3 of 9, to the Dangerous Waste Part A Permit Application Form 3, Revision 1, for the PUREX Storage Tunnels. The PUREX Storage Tunnels are underground railroad tunnels which are used to store failed/obsolete PUREX process equipment removed from the PUREX plant.

On August 18, 1990, the Dangerous Waste Part A Permit Application Form 3, Revision 1, for the PUREX Storage Tunnels was certified and transmitted to the State of Washington Department of Ecology. Upon review of the permit application, a typographical error was discovered on Page 3 of 9, Section IV, "Description of Dangerous Waste," Line 7, where the dangerous waste number is listed as "D011." The correct dangerous waste number should be "D001" for ignitability (silver nitrate). A recertified revision of this Part A, incorporating the noted change, will be submitted with the next revision of the PUREX Storage Tunnels Part B Permit Application.
