COMPLETION OF HANFORD FACILITY AGREEMENT AND CONSENT ORDER
(TRI-PARTY AGREEMENT) MILESTONE M-41-03A

Dear Messrs. Stohr and Sherwood:

The recently renegotiated Tri-Party Agreement contains a number of new milestones for the single-shell tank interim stabilization program at Hanford. One milestone, M-41-03A, states:

Issue request for proposal for a mobile high-level liquid waste transport cask. This cask must already be designed to meet applicable Department of Transportation (DOT) and Nuclear Regulatory Commission (NRC) licensing requirements.

A request for proposal for a high-level liquid waste transport cask was issued February 23, 1994, five days before the required completion date. Issues associated with this cask were discussed with your staff's milestone unit managers on February 8, 1994. The cask will comply with all applicable requirements.

This completes work on this milestone.

The U. S. Department of Energy will determine the delivery date for the cask, and so inform you, after the contract is awarded so that the date for Milestone M-41-03B can be established.
