Dear Mr. Fierro,

As a concerned citizen of the United States, Washington state and the planet Earth, I urge you to do all you can to protect the Hanford Site. This unique land needs to be preserved forever for our children and Grand children. This would be possible if the Wabluke Slope, the Hanford Reach, the Columbia River Islands, the Arid Lands

Ecology Reserve and the Mc Lee
Ranch would all be combined
to form a National Wildlife
Refuge where there would be
no commercial mining, agriculture
or livestock grazing.

Sincerely,
Dorothy Adkins
