Dear Messrs. Day and Jansen:

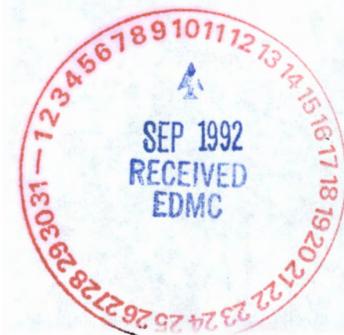

Z PLANT SOURCE AGGREGATE AREA MANAGEMENT STUDY REPORT (AAMSR) DRAFT B REDLINED
VERSION SHOWING COMMENT DISPOSITIONS

This letter transmits the redlined version Draft B of the Z Plant Source AAMSR, showing the dispositions to review comments provided by the State of Washington Department of Ecology (Ecology), and the U.S. Environmental Protection Agency (EPA) on Draft A of the Z Plant AAMSR (M-27-03).

This revision includes the following (in addition to your specific comments in the EPA letter to A. C. Harris from D. Faulk "Review of Z Plant Source Aggregate Area Management Study [AAMS] Draft A" dated April 13, 1992):

- Finalized generic text based on Z, S, and T AAMSRs regulator comments
- Section 2.3.2 text regarding Single Shell Tanks with repetitive material reduced
- A generic physical model in Section 4.0
- Implementation of the analogous site concept in Section 9.0
- Minor changes as a result of Westinghouse Hanford Company technical editing

As agreed to at the July 1992 Unit Managers' Meeting, you will have a two-week review period beginning August 24, 1992, followed by a meeting to discuss any comments tentatively scheduled for September 8, 1992.

Please note that due to a short turnaround to meet the agreed submittal due date, some of the U.S. Department of Energy, Richland Field Office, Office of Chief Council (OCC) comments on Section 6.0 (identification of ARAR's for the Z Plant Aggregate Area) have not been dispositioned in this revision. Therefore, EPA/Ecology will be sent the corrected Section 6.0, incorporating these comments. It is expected that the corrected revision will be submitted concurrently with the Draft B, T Plant AAMSR, which is due September 4, 1992.

If you have any questions, please contact Mr. P. M. Pak of my staff on (509) 376-4798.

Sincerely,

Steven H. Wisness
Hanford Project Manager
